

Cultivation of Aromatic Plants

January 16, 2018

Resource person: Mr. Sukesh Sinha, Keva Industries, Mumbai

Participants: 85 (Local farmers, students, college stake holders)

Points discussed:

- Cultivation of commercially and economically aromatic plants for fragrance industry such as Patchouli, Citronella, Lemon grass etc.
- Extraction of essential oils from different plant parts.
- Marketing avenues of essential oils.
- Soil profile and agro-climatic requirements of these plants.
- Possible returns on initial investments.
